TEXT: EXTRACT. DOCUMENT CONTAINS 1 PHOTO. THIS ARTICLE WAS PUBLISHED IN THE NOVEMBER 20, 1989 ISSUE OF THE DAILY INAP.

CANDIDATE OF MEDICAL SCIENCES R. PICHKHADZE AND SCIENTISTS OF THE INSTITUTE OF MEDICAL EQUIPMENT TESTING HAVE JOINTLY DEVELOPED SOVIET COMPUTER AIDED IRIDODIAGNOSTIC SYSTEMS. NOW RAMAZ SEMENOVICH HEADS THE SOVIET AMERICAN FIRM MEDITSINA, WHICH HAS EMERGED AS A STRUCTURAL UNIT OF THE JOINT ENTERPRISE ASK (AMERICAN SOVIET CINE INITIATIVE). THE FIRM IS WORKING ON CREATING THE FIRST AUTOMATED DIAGNOSTIC COMPLEX IN THE WORLD. THE MILAN INSTITUTE OF PSYCHOTRONICS IS COLLABORATING WITH THE SOVIET SCIENTISTS. THE PRIMARY PURPOSE OF OUR WORK, CONSIDERS R. PICHKHADZE, IS TO COMBINE THE ADVANTAGES OF IRIDODIAGNOSTICS AND NONTRADITIONAL TREATMENT METHODS: ACUPUNCTURE, MANUAL THERAPY AND POINT MASSAGE. THEN WE WILL BE ABLE TO AN ENTIRE NETWORK OF TREATMENT AND DIAGNOSTIC CENTERS IN ALL THE COUNTRY'S LARGE CITIES AND RETURN HEALTH TO THOUSANDS OF PEOPLE.
